Bi-Weekly Plan (26 payments): \$712 per payment
Weekly Plan (52 payments): \$356 per payment

Donor Explanation: Subsidized Tuition for Grades 9–12

The true cost of delivering Chamal Academy's college-preparatory program for grades 9–12 exceeds the amount families are asked to pay. Base tuition is intentionally set at \$3,600 to remove financial barriers and expand access to rigorous academics, elite basketball training, wellness services, meals, transportation, and leadership development. Scholarships and donor contributions bridge the gap between actual program costs and affordability, directly investing in student opportunity, achievement, and long-term success.
