Donor Explanation: Subsidized Tuition for Grades 6–8

The true cost of delivering Chamal Academy's middle school program (grades 6–8) exceeds the amount families are asked to pay. Base tuition is intentionally set at \$3,600 to reduce financial barriers and expand access to strong academics, structured supervision, elite skill development, wellness support, meals, transportation, and leadership programming. Scholarships and donor contributions help bridge the gap between actual program costs and affordability—directly investing in student growth, character, and long-term success.
